

LEADERSHIP ACADEMY

At the Leadership Academy, students go through breakout sessions where they are taught how to be effective leaders, how to promote Virginia TSA, and how to better serve their community, as well as how to have fun while getting the work accomplished. We also invite a guest speaker who helps motivate the students to do something positive with their own lives.

SPECIAL UPDATES

Virginia TSA News!!!!!!

Virginia TSA is Going "GREEN"

Our planet is one of our most precious resources, and we as civilians must do everything we can to protect it. At the Virginia TSA conferences and the executive council meetings an untold number of paper, plastic, and aluminum are wasted. This year Virginia TSA is going to do more to help reduce that waste and preserve our planet. The executive council has established the "Go Green" Committee to help make Virginia TSA a more environmentally cautious organization.

The committee's big goal for the upcoming year is to have recycle bins at Technosphere '09 and encourage reuse of paper and bottles. It is the executive council's hope that all students and advisors will participate in recycling their plastic bottles and paper to help lower our carbon footprint. The committee also encourages any separate chapters to start or help recycling programs at their school. The "Go Green" Committee will work hard this year to help Virginia TSA truly become a green organization.
